

Cowara Contractors Environmental Policy

Cowara Contractors Pty Ltd understands and embraces its responsibilities to manage our works in such a way that minimise our impact on the environment.

We monitor and review our environmental management practices to ensure compliance with this policy.

The company is committed to effective environmental management through the use of the following steps:

- Promotion of environmental awareness throughout the company by educating and training all personnel and adopting responsible work practices.
- Compliance with statutory, regulatory and legal requirements related to the environment.
- Use of materials recycling techniques to minimise the production of waste and to ensure the appropriate management of waste materials that cannot be recycled.
- Wherever possible we use environmentally friendly equipment and materials.
- The establishment and maintenance of a system to record and report any environmental incidents.
- Reviewing our construction activities to ensure that we always comply with this policy and strive to adopt new standards of practice.
- Continuously strive for the efficient use of our plant, equipment and vehicles.
- The establishment and use of site specific and whole of company Environmental Management Plans.
- Encourage management and employee engagement to achieve and exceed these set of principles and continuously improve the company's environmental behaviour.

Steve Duggan

Managing Director
